

All Cup competitors:

You will recall that earlier this year following the loss of Pete Coleby, Paul Gibson stated that there would be a 'memorial' element to the races at Croft.

Paul is instigating a Trophy for the aggregate winner of the Croft races and in addition is putting up a £ for points prize structure to be divided between all competitors.

The Prize fund is of the order of £1000, may be slightly more, and again will be awarded on an aggregated basis. So for example if there were 14 runners [and finishers...] then 'the winner' would receive £150 and so on down to £35 for 14th.

Hopefully this may act as 'the right sort of' incentive to people to make the trip to Croft which is of course such a beautiful venue and which deserves our support given the tough times it has faced.

In addition we have been allocated the pit garages this year which can be such a boon to the weekend.
